for more  
information

We now have 3 new exciting, dynamic roundabouts.

## OYSTER

Perfect for children of all abilities to spin side by side... The dish is manufactured from high quality steel that is then hot dip galvanised, ensuring durability and preventing rusting. The edging is manufactured from recycled yoghurt pots, making it weather resistant and environmentally friendly.

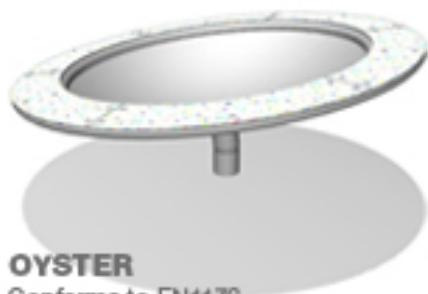

## LARGE DISH

Our Dish roundabout is our best-selling item, so we thought we'd make a bigger one! As with the smaller version, our 1.5m diameter dish allows even more children, of all ages, to play individually or socialise in small groups. An ideal inclusive item!

## RUNAROUND

The top surface of the Runaround is covered with a red Polyurethane coating, creating a textured finish which prevents children from slipping when in motion, and the red colouring ties in with our current Teenzone range. Unlike the Oyster and Large Dish, the Runaround has a fixed bearing arrangement permitting rotation to just a 4° angle, creating an additional sensation to the spinning motion.

## Specification

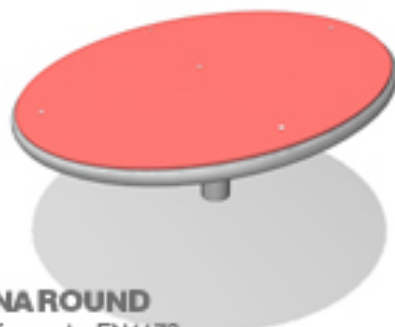

### OYSTER

Conforms to EN1176  
Weight - 176kg  
Age 3-14 years  
HIC - 1m  
Size - diameter 1525mm, height 817mm  
Safety surfacing - area 25.3m<sup>2</sup>, perimeter 18.3m

### LARGE DISH

Conforms to EN1176  
Weight - 145kg  
Age 3-14 years  
HIC - 1m  
Size - diameter 1940mm, height 864mm  
Safety surfacing - area 30m<sup>2</sup>, perimeter 20m

### RUNAROUND

Conforms to EN1176  
Weight - 160kg  
Age 8-14 years  
HIC - 1m  
Size - diameter 1525mm, height 785mm  
Safety surfacing - area 47m<sup>2</sup>, perimeter 25m
