KICKABOUT AREAS

KICKABOUT AREAS

Notts Sport's market-leading multi-use games areas are designed for customers with limited budgets or limited space to deliver a full-size synthetic pitch.

They're an excellent alternative to asphalt or tarmac pitches for parks or housing estates and offer great performance compliant for a wide variety of sports and informal games.

They're also highly resistant to vandalism and built to endure heavy daily use with minimal maintenance.

Notts Sport provides design assistance for all elements of the scheme, including options on the choice of shockpad or performance control layers to meet specific sports standards or individual requirements and even advice on fencing and lighting if necessary.

Your kickabout surface can be designed to suit the activities on offer, with inlaid lines used to mark out the different sports and games.

VHAF NottsSward 1300 is also available in 15 energetic shades - from Grass Green to Sunset Orange - offering vast scope for using colour. They can also be used to compliment urban or rural landscapes.

Your organisation's name or revenue-earning sponsor's logo can also be inserted into the playing surface.
